

Discovering Europe - Interactive Activity Book

European general culture book

- 7 themes of cultural interest embodied in 35 original illustrations with synthetically written texts. (Including themes of English, German, Spanish, French and Italian culture).
- The themes are valid for both girls and boys.

Interactive activity book

- Multilingual dictionary that invites the child to search, find and paste each sticker in the correct place (in the correct word).
- The action of removing the cards from the book with ease thanks to the perforation in the paper, is a pleasant activity for the child. As a result, a neat and well-cut deck of cards, ready to play.

Colouring book

- The colouring image occupies only a third of the total surface of the sheet, a detail that helps children finish painting the image in its entirety, without leaving the task in half.
- Drawn with precise and delicate lines.
- It is printed on heavyweight paper, also allowing painting with a brush, without the surface of the sheet being ruined.

Card games

- The book includes rules for 3 different types of card games that cover all ages, from the smallest to the oldest.

The multi-linguistic structure of the books as a commercial advantage

Thanks to the fact that the books are written in 5 languages simultaneously, allows you to promote it to the vast majority of your customers. It is enough that the mother tongue of the child is English, Spanish, French, Italian or German so that he can enjoy the book and the activities it proposes.

**** Book covers and explanatory page in 5 languages for your choice if you want to order assorted**
